

TPL-300 Press machine

—. Using condition

- Electric resource
380V, 3PHASE, 50HZ
- Plastic raw materials
All kinds materials
- Total power : 3.0Kw; 20A
- Weight : 800Kg
- Size
1000×600×1500mm(length×width×height)

二. Main parts specification

Speed adjust	Stepless speed regulation-frequency control
Capacity	30T
Pressure	0 to 30 ton (adjustable)
Area of electric board	300mm×300mm
Cooling plate size	300mm×300mm
Timer	LED 0-99(min)
Plate spacing	0-70mm
Heat type	Electric heating
Cooling type	Running water cooling
Temperature range	≤300°C
Install type	Four column type
Mould open type	Automatic rise and fall
Safety mode	Open the safety door automatic stop
Temperature controller	LED temperature controller
